JETWAY SYSTEMS[®]
For the Perfect Turn

Oshkosh AeroTech Jetway Systems®

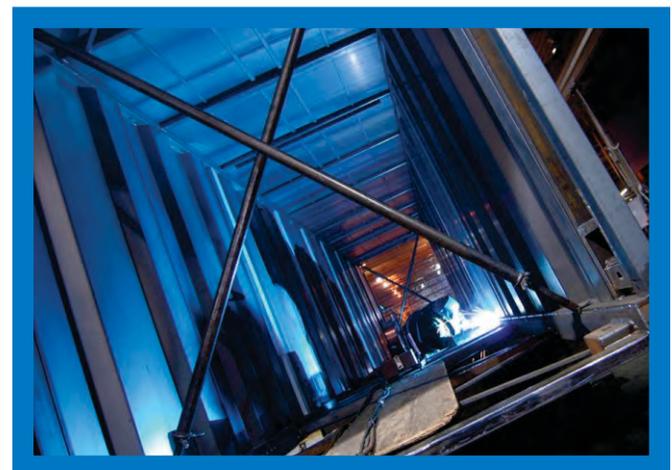

Jetway® boarding bridges, JetAire® pccair units, and Jetpower® 400 Hz converters last a long time, often for decades. They need long-term product support, OEM parts, upgrade kits, and refurbishments to keep them performing and looking like new. That's exactly what you get from Jetway Systems® Aftermarket Products and Services group.

Extend the life and look of your bridge, pre-conditioned air, and 400 Hz products with the help of Aftermarket Products and Services.

- OEM Replacement parts
- Equipment Inspections and Evaluations
- Refurbishments (Onsite or Offsite)
- Replacement and Upgrade Kits
- Electrical and Controls Upgrades
- Training (Hands-on and Classroom)

Enhance to Greener Environmental Solutions

Let us show you options for reducing overall APU fuel consumption and operational inefficiencies at the gate. We offer AmpTek to help ground support equipment electrification efforts by smartly load sharing excess bridge power. Also available is our iOPS telematics gate monitoring, diagnostics, and maintenance software packages. Be in the know and in control of all your gate operations with iOPS.

Add PCAir and 400 Hz Options

Jetway Systems aftermarket specialists can assist in upgrading your entire gate with environmentally friendly, fuel saving JetAire and Jetpower air and power devices.

Inspection, Maintenance and Spare Parts Programs

Contact Jetway Systems to arrange for comprehensive product inspections, maintenance reviews, spare parts audits, and other services to enhance the life of your assets.
