Turnkey Solutions

An Oshkosh Corporation Company

Airport Services
For the Perfect Turn

BHS Turnkey Solutions Provider

Let us manage your BHS project from start to finish. As a Turnkey Solution Provider, AeroTech will take full contractual, technical, and commercial responsibility for your Baggage System work with:

- **Project Management:** The AeroTech BHS Team is your single point of contact for all project related items. We do it all with superior, experience-based project integration, scope control, risk management, subcontractor management, commercial management and more. We bring know-how to every phase of your BHS project.
- **Supplier Selection:** AeroTech selects and manages industry-leading OEMs and installation subcontractors. We select and manage the team to complete your BHS work on time and within budget.
- **Integration Management:** AeroTech manages the BHS work from design, engineering, manufacturing, installation, testing, commissioning, on through to training and turn over.

Refurbishments and Enhancements

Extend your BHS life and improve up-time with AeroTech total refurbishment and enhancement services — enhancements that can save you up to 50% compared to replacement costs.

- Rebuild / Refurbish existing carousels
- Replace out of date mechanical equipment and control devices
- Refitting with PLC controls

With AeroTech Turnkey Solutions, improve efficiencies, load balancing, system throughput, reliability, energy savings, the passenger experience and more.

Ongoing Technical Support for Existing Customers

- Complete BHS functional, mechanical, and electrical assessments
- Recommendations for improving BHS performance
- PLC / Low-level control enhancements
- Expanded scope for ongoing projects - AeroTech covers the gap on the unforeseen, whatever the need.

No Matter the Size

Big or small, upgrade or refurbishment, general contracting, project management, expansions, programming and more — whatever your baggage system needs, AeroTech can help.

Contact us today, and see how we can make your next BHS project a total success.

Airport Services for Gate and Terminal Maintenance

Let the experts at Airport Services experts help you with:

Turnkey BHS Projects: From design, project management, installation, to commissioning and turnover, AeroTech is ready to manage your BHS project.

BHS: Baggage Handling System — AeroTech operates, maintains, designs, upgrades, refurbishes and manages BHS systems and projects.

EAM: Enterprise Asset Management — The Airport Services specialists from AeroTech have years of experience helping manage vital airport assets. We can help with repair / replace decisions, spare parts management, full-service on-site maintenance, 24/7 monitoring, preventive maintenance programs, and equipment operations.

CMMS: Computer Monitoring Management Systems — AeroTech iOPS® provides real-time, actionable information on your gate and terminal equipment to your office and mobile devices.

MEPS: Mechanical, Electrical, Plumbing, and Structural — AeroTech monitors, maintains, and operates most of the systems inside terminal facilities as well as managing construction projects.

HVAC: Heating, Ventilation, and Air Conditioning — AeroTech maintains and operates central air systems, chillers, air handlers, ducting, and point-of-use preconditioned air units.
