AUTOMATED BRIDGE DOCKING

OSHKOSH™
AEROTECH

JETWAY SYSTEMS®
For the Perfect Turn

From Oshkosh AeroTech –

Improve turn times, reduce damage, and enhance the customer experience with JetDock.®

JetDock is the automated boarding bridge docking system from Oshkosh AeroTech. With the touch of a button, your Jetway® boarding bridge will locate the aircraft passenger door, properly align itself, and dock. Fast, precise, and safe without the need for decals or other indicators on the aircraft fuselage.

Faster - One step, touch of a button, precise automatic bridge docking.

Better Customer Experience - Shorter aircraft turns, less waiting on the aircraft and in the terminal for passengers.

Safer with Improved Precision - Perfectly positioned boarding bridges, during every aircraft turn.

No Decals on Fuselage - JetDock requires no decals or markings on the aircraft for automatic docking.

Ideal for Multi-use Gates - The Jetway boarding bridge with JetDock can dock to virtually any type of aircraft with no worry about targets or decals.

Compatible - JetDock can be retrofitted to many older Jetway boarding bridges.

With JetDock automated bridge docking, the entire aircraft turn can be improved.
